# Now *wonderful* **Parrot TULIPS**

**. . . IF  
YOU  
PLANT  
THIS FALL**

These distinctive Tulips are entirely different from all others, due to their attractive fringed and waved flowers. They bloom with other tall growing varieties. Priced low so you can include them with your other Tulips.

## **VARIETIES OF PARROT TULIPS**

**BLACK PARROT.** A welcome color addition to this interesting family of Tulips. It is a sport of the purple-black Philippe de Comines. This is an entirely new color in Parrot Tulips. Large deep velvety maroon, almost black. Fine substance. 35c each; 2 for 65c; 5 for \$1.50; 10 for \$2.90; 25 for \$6.95, Ppd.

**BLUE PARROT.** 26 inches. A glorious flower of bright violet, shading to steel-blue. As blossom opens it gradually changes to a most pleasing blue; very large flower with strong stem. Sport and color of Darwin Tulip, Bleu Aimable. Highly recommended. 2 for 40c; 5 for 85c; 10 for \$1.50, Postpaid.

**FIREBIRD.** 20 inches. A grand new addition to the Parrot class, of a penetrating red, with the center of the beautifully ruffled petals marked green on the outside. Huge in size and very colorful. Tall growing and strong stemmed. It is really gorgeous! 2 for 35c; 5 for 75c; 10 for \$1.30, Postpaid.

**FANTASY.** A beautiful salmon-pink. This Tulip being a sport of Clara Butt produces a very similar color to Clara Butt, but deeper pink inside the petals. The laciniated petals, the delicate coloring and unusual form, create a flower of rare beauty. 2 for 35c; 5 for 75c; 10 for \$1.30, Postpaid.

**SUNSHINE.** An exquisite and very rare new Parrot Tulip in solid golden yellow with slight greenish markings. Petals deeply cut and lacerated. The black stamens form a remarkably striking contrast with the intense yellow color. One of the latest novelties. 2 for 40c; 5 for 85c; 10 for \$1.50, Postpaid.

**ORANGE PARROT.** Dark orange with faint markings of old gold. Very strong stem, which holds the colossal flower upright. Undoubtedly the best Parrot in this color. Novelties like this are very rare and are acquired once in a lifetime. A center of attraction. 35c each; 2 for 65c; 5 for \$1.50; 10 for \$2.90; 25 for \$6.95, Postpaid.

# WHY

# Fall Planting

# IS IDEAL

- It is agreed by experts that fall is an ideal time to plant nearly all varieties of trees, shrubs, and plants. The early fall rains give them a flying start.
- Many shrubs and plants planted in the fall will bloom exceptionally well in the spring, whereas, spring planting may not be favorable to an early bloom.
- The condition of the soil is usually very excellent for successful transplanting in the fall. A wet spring or a dry spring might make it impossible for you to plant.

## ORDER BY MAIL

Mail order buying of nursery stock is the best way, because plants are handled by experts and they do not lie around under the questionable care of incompetent persons. We will ship at the proper planting time. **Strawberries cannot be shipped until Oct. 10.**

## OUR GUARANTEE

We guarantee to deliver to our Customers first-class Nursery Stock in good growing condition. If through delay or mishandling in transit all is not in first-class condition on arrival, notify us at once and we will make a prompt and satisfactory adjustment by replacement or prompt refund of your remittance.

We guarantee our nursery stock to be true to name, and we strive to avoid mistakes, however, should any stock prove untrue to name we agree to replace such stock or refund the purchase price.

We are recommending to our customers, Popular Gardening, the new all garden magazine and Country Gentleman, the "two-in-one magazine" for better farming and better living. We are enclosing a subscription blank for your convenience.

**WE RETURN ALL PAPERS.** All papers pertaining to your orders will be returned to you when the order is acknowledged. Do not destroy them. If it becomes necessary to write us **AT ANY TIME** in regard to your order, be sure to return everything, including correspondence, original order and shipping tags. It is not necessary to return planting instructions.

## WE PAY POSTAGE ON MOST ITEMS

You will please note that most items listed in our Fall Catalog are delivered to you postpaid, and are so listed. This saves you money.

There are, however, some items that are too large to ship by parcel post, such as fruit trees and shade trees. There are items such as hedge plants and some varieties and quantities of berry plants that are listed at such a low price for the high quality of stock that we cannot afford to pay the shipping charges. These items are shipped to you transportation charges collect.

In some orders there are trees which must go by express, and also some stock which would ordinarily go by parcel post. In order to avoid making two separate shipments we send the entire order by express. For this privilege we include extra stock which has a greater value than the amount of the extra transportation charges. When selecting this extra stock for you we choose items that fit in with the other items on your order.

## Extra GIFTS with Your Order

With your order from this 1954 Fall catalog, received by us not later than November 15 you may select premiums as follows:

With each order of \$5.00 you may select one of the 7 premiums listed below.

With each order of \$10.00 you may select two of the 7 premiums listed below.

With each additional \$5.00 you may select one premium.

THE MIRACLE PLANT FOOD

## RA-PID-GRO

Fall Root Development Is Very Important to Spring Blooming  
Bulbs and Plants

HOW MUCH WILL I NEED?

To estimate your season's requirements of Ra-pid-gro figure at the rate of 1 pound of Ra-pid-gro for each 100 pounds of other fertilizer you have been using. Or the manufacturer recommends the following: For a lot 40 x 60 ft., with 15 shrubs, 20 ft. of hedge, 3 fruit trees, 2 evergreens, 12 roses, and 800 sq. ft. of lawn, 5 lbs. of Ra-pid-gro for a season's feeding. A lot 40 x 100 ft., with 25 shrubs, 3 shade trees, 4 fruit trees, perennial bed, a few grapes and raspberries, 10 evergreens, a small vegetable garden, and 1500 sq. ft. of lawn, requires 10 lbs. per season. A lot 75 x 150 ft., with 48 roses, 40 shrubs, 4 shade trees, perennials, 6 evergreens, hedge, vegetable garden, strawberry and raspberry patch, grapes, 10 fruit trees, and 4000 sq. ft. of lawn will require only 20 lbs. of Ra-pid-gro per season.

WHAT WILL IT DO?

Ra-pid-gro will work almost unbelievable miracles in promoting rapid and healthy growth on all types of plants. Use it on lawns, around shade trees, evergreens, shrubs, roses, perennials, vegetables and house plants. Many times plants which have been given up for dead will respond to applications of Ra-pid-gro.

## MORaine LOCUST (Plant Pat. No. 836)

### *New-Fast Growing Shade Tree*

This sensational new shade tree will provide good shade quicker than any tree we know of, and is superior to other fast growing trees. Moraine Locust is a hardy drought-resistant tree that grows successfully on a wide range of soils. Because Moraine Locust is sterile there are no unsightly seed pods to clutter up the lawn. Moraine Locust forms a large beautifully shaped head similar in appearance to the American Elm. The finely cut foliage allows enough light to filter through to promote excellent growth of lawn, yet shade dense enough to discourage the growth of Crab-grass. Try a planting of this beautiful fast growing shade tree this fall.

# RED RASPBERRIES

*New!* SEPTEMBER

## EVERBEARING RED RASPBERRY

A superior autumn-fruiting Red Raspberry recently introduced by the New York State Fruit Testing Association. Bears two crops in one year. Berries are bright red in color, of good size and uniform, round shape. Keep well on bushes. Summer crop ripens about 5 days earlier than Newburgh; fall crop 3 to 4 weeks earlier than other varieties, thus insuring against failure due to fall freezes. Try a planting this fall.

# "BRILLIANT" Super-Bearer

Patent No. 1183

## EVERBEARING STRAWBERRY

### THE BEST TRUE EVERBEARER

#### BRILLIANT ACCLAIMED EVERBEARING CHAMPION

Brilliant has won all records for BIG YIELD and PERFECT BERRIES. Brilliant won first place out of tests with seven new and many older everbearing varieties. Brilliant produced 7,000 quarts per acre; 2,000 quarts more than any other variety.

#### BRILLIANT IS A TRUE EVERBEARER

Brilliant is the only everbearer that keeps fruiting steadily all summer and fall. Brilliant is a 100% perfect pollinizer and matures to full size, uniform shape, and even color.

#### BRILLIANT PRODUCES EARLY

Brilliant is the quickest berry maker you ever saw. The plants are so thrifty and vigorous that unlike other everbearers, the very first blossoms can be left on to bring you perfect berries just a few weeks after the plants are set out.

#### BRILLIANT HAS STOOD EVERY TEST

During the droughts of past years many other Strawberry plants dried up while Brilliant produced its usual heavy crop of top quality fruit. Excessive Fall rains which usually hinder pollinization and spoil the crop of other everbearers do not affect Brilliant. Perfectly hardy, Brilliant does equally well on thin sandy soil, heavy clay, or raw muck.

#### BRILLIANT HAS MATCHLESS QUALITY AND FLAVOR

Brilliant berries are so bright and appetizing that you can almost taste them before they reach your mouth. They are rich and tangy in flavor, but lacking the acidity that is so common in everbearing berries. The tasty and juicy flesh is of firm texture and solid throughout. Fine for preserves, and tops for freezing.

#### RED CROP

A new June-bearing variety, released by the New Jersey Experiment Station in 1950. The berry is medium to large and very uniform in size; it is bright red throughout with no hollow center. It makes an excellent frozen product. It has indicated a resistance to red stele disease.

#### FAIRLAND

A new variety, recently released. Resistant to red stele; vigorous grower and heavy yielder. Berries are large, bright red, good quality and flavor. A very hardy grower.

#### 20TH CENTURY

An outstanding everbearer; second only to Brilliant, it is superior in size, quality and vigor of plant to other everbearers. It makes vigorous growth with exceptionally heavy producing ability. Bright red berries of fine texture and delightful taste. By all means, try this fine everbearer!

#### DUNLAP

The sweetest, richest-flavored Strawberry. Ripens mid-season to late. Makes a solid fruiting row with medium-size, very dark red berries. Plants are self-pollinizing and very hardy.

#### PREMIER

Earliest to ripen; brings highest prices on early market. Bright red berries; wonderful for fancy dessert and canning. Excellent for shipping. Perfectly self-pollinizing.

#### KARDINAL KING

The best late berry. Plants bear huge crops over a long period. Dark red berries are juicy and sweet flavored. Starts to bear soon after Premier and continues through the late berry season.

### CRIMSON KING MAPLE

(Plant Pat. No. 735)

Truly the best Red Maple grown. A great improvement over Schwedler's purple leaf Maple. In the spring the foliage is a much richer red and this brilliant coloring is carried through the entire season. Unquestionably, Crimson King is a superb tree for single specimens, along streets and driveways, and every landscape purpose; providing striking contrast among other trees.

Crimson King is hardy and grows rapidly; reaches 50 feet at maturity. Your lawn and garden will take on a new elegance and distinction with a planting of Crimson King.
